

Valid from 01/01/2019 until 31/12/2019. VAT not included.

The aim of the core facilities is to provide an outstanding scientific, technical and methodological support to internal and external researchers. The core facilities are willing to participate in the progression of the research by additional involvement in planning experiments and / or interpretation of results. Because of this, depending on the degree of participation, we can agree on an eventual authorship before the start of the activities, in addition to the acceptance of a budget.

Similarly, we remind you about the need to acknowledge the core facilities about their activity and dedication in the Acknowledgements section of publications derived. When in doubt about how to cite each core facility please contact the specific document on recommendations drawn up by IDIBAPS (<http://www.idibaps.org/Idibaps-Filiacio-Agraiments-2014-ca.pdf>) or the Coordinators of the core facilities.

LEGEND

INTERNAL	Researchers accredited by IDIBAPS/associated to FCRB, with projects subsidized by IDIBAPS/FCRB
CAMPUS CLÍNIC	Campus Clínic Institutions, and other nonprofit institutions managing projects from researchers IDIBAPS/FCRB
EXTERNAL	External institutions and researchers managing projects from public nonprofit organizations
PRIVATE	Private companies and profit organizations, personalized fee upon request
CUSTOM-MADE FEE	Personalized quotation applicable depending on cases
UPON REQUEST	Price on request
N/A	Non applicable (the service is not available in the specified conditions)

Fees have been approved by the IDIBAPS Board of Governors on the 21st December 2018.

BIOBANK CORE FACILITY

SUPPLY OF HUMAN SAMPLES FROM THE BIOBANK

According to Royal Decree RD1716/2011 which establishes the basic requirements for authorization and operation of biobanks: "Biobank activity does not conceive aim of profit. However, the biobank may include in the supply of each sample the costs of obtaining, processing, maintenance, ... and other expenses of similar nature related to the samples." In the same way, the samples will be supplied only for projects previously approved by an Ethics Committee. Please contact us at biobanc@idibaps.org for further information regarding sample request.

Ref	SAMPLE SUPPLY ¹	INTERNAL	CAMPUS CLINIC	EXTERNAL	
TP052	Serum aliquot (400 µl)	11,83 €	14,20 €	23,00 €	
TP053	Plasma aliquot (500 µl)	11,88 €	14,26 €	28,00 €	
TP054	DNA aliquot (DNA from blood) (µg)	1,00 €	1,20 €	2,10 €	
TP055	Histological sections from tissue frozen in OCT medium	on slides	5,80 €	6,96 €	8,30 €
TP056		in tube	10,50 €	12,60 €	15,70 €
TP057	Histological sections from paraffin-embedded tissue	on slides	3,70 €	4,44 €	6,30 €
TP058		in tube	6,00 €	7,20 €	11,00 €
TP059	Supply of sections of TMAs (Tissue MicroArrays). Sections of TMAs are supplied and the price corresponds to one section of a sample, defining as "sample" each biological entity. I.e.: if pathological and non pathological tissue areas from a patient are included in a TMA, two samples are considered; if a patient is included in the TMA with samples/cores from primary tumour and metastasis, two samples are considered. The final price depends on the number of samples that the TMA contains, and the number of replicas from each sample included. Ex: a section of a TMA that contains 14 samples, each of them with two replicas, would cost 4.9€ (14 x 0.35€) at an internal price, and 12.6€ (14 x 0.90€) at an external price.	A core (replica) per sample ⁴	0,20 €	0,24 €	0,65 €
TP259		Two cores (replicas) per sample ⁴	0,35 €	0,42 €	0,90 €
TP260		Three cores (replicas) per sample ⁴	0,47 €	0,56 €	1,20 €
TP261		Four cores (replicas) per sample ⁴	0,61 €	0,73 €	1,50 €

¹ Depending on the complexity of the request, the application of additional charges will be valued for each project. Please check with the Biobank for different volums/amounts.

² Samples Type 1 (excluding hippocampus and substantia nigra - see Type 2)

Alzheimer's disease (excluding genetic cases)

Parkinson's disease (excluding genetic cases)

Creutzfeldt-Jacob disease (excluding genetic cases)

Lewy Body disease (excluding genetic cases)

³ Samples Type 2

Diseases not included in Type 1: Multisystemic Atrophy, Other tauopathies (PSP, CDB, AGD, GGT...), Amyotrophic Lateral Sclerosis, Temporal frontal lobe degeneration (Tau, TDP-43, FUS, ubiquitin or others).

Malalties gènètiques (include Huntington's disease and Spinocerebellar ataxias)

Non-degenerative diseases (include inflammatory disease)

Hippocampus and substantia nigra of Type 1 cases

⁴ A correction factor will be applied to the total price of the supplied TMA section, depending on the % of cases represented in the last evaluated section.
